

OUR FUTURE STARTS WITH YOU

Imagine if everyone in your school community knew how much and why they mattered—approaching every day with purpose and meaning, engaging, supporting, and empowering one another, and contributing their unique self for the betterment of the greater good.

Creating a space that matters starts with you.

EXPERIENCE MATTERS

For 15 years, Every Monday Matters (EMM) has designed student-centered journeys of connecting, learning, and growing—a path to find meaning and empowerment. We help to create a space where students and staff feel seen, heard, and loved. We do this through our Mattering Mindset™.

Today, we successfully reach over three million students in all 50 states and six countries around the globe. We create transformational mattering experiences to help students and staff value themselves, better understand others, and know they are part of something bigger.

We understand every school and youth program is different, so we take a human-centered design approach to problem-solving, working closely with you to assess needs, ideate a framework for impact, and empower students and staff with every experience created.

INSPIRE AND EMPOWER

For you, Every Monday Matters (EMM) has designed:

Over 800 free scripted Kindergarten through 12th grade lessons that integrate EMM's Mattering Mindset™ and Social and Emotional Learning (SEL) competencies

Family Companion PDFs that help families make mattering happen at home

Professional Development that supports, guides, and empowers staff to thoughtfully create spaces that matter

Soon, your students will be actively practicing ways to connect to their own awesomeness, become thoughtful do-gooders, and recognize what they can do to contribute to creating a community that matters.

ACTION MATTERS

Let us help you make mattering happen. You can learn more about us at www.everymondaymatters.org or email us directly at edu@everymondaymatters.org.

“Through Every Monday Matters students have learned that their voices, opinions, and actions can and do change the trajectory of a world increasingly divided to one that is more empathetic, loving, and united. Every community needs to be touched by the simple words...You Matter™.”
